My daughter was apprehensive about enrolling in another drama program but when I saw the advertisement for Time 4 Drama, my daughter became willing to give it a try. Grace had worked with Toni in singing and acting at school before, now she can develop her talents even further. Toni provides a safe, fun way for kids to begin an interest in the arts. Since this lacks in many public school curriculums, it's important to supplement our kids' experience. I'm glad this is available.
